

# EARN A BACHELORS DEGREE

*with NCCER approved training*

NCCER (The National Center for Construction Education and Research) develops standardized construction and maintenance curriculum and assessments with portable credentials. These NCCER credentials may transfer into any of Capitol Tech's bachelor programs as elective credit.

**NCCER and Capitol Technology University have a Maryland Higher Education Commission (MHEC) reviewed and approved agreement for NCCER credential completers to have their credential evaluated for technical elective credit.**

The number of technical elective credit hours from NCCER programs may not exceed 42 credits. Students from accredited 2-year or 4-year institutions may transfer additional credits. However, a maximum of 70 credits can be transferred from a combination of NCCER and 2-year institutions.

A minimum of 30 credit hours must be completed from Capitol Technology University to obtain any baccalaureate degree regardless of the total amount of credit transferred in towards the degree.

## Why Capitol Tech?

Our faculty are working professionals in the field. These subject matter experts apply their knowledge on a daily basis and are up to speed on emerging developments.

Over 80% of Capitol's B.S. graduates receive a job offer with a competitive salary within 6 months of graduation.

65% of Capitol's undergraduate population is from underrepresented student populations (ethnic minority or women in STEM).

*For all NCCER Certifications, one (1) semester hour of credit will be awarded for a minimum of fifteen (15) hours of NCCER approved training where each hour is composed of fifty (50) minutes of actual class time, exclusive of registration, study days, and holidays, when supervision is assured and learning is documented. One (1) semester hour of credit will also be awarded for a minimum of thirty (30) hours of NCCER approved training where each hour is composed fifty (50) minutes each of supervised laboratory time, exclusive of registration, study days, and holidays, when supervision is assured and learning is documented.*

# BACHELOR DEGREE PROGRAMS

Capitol, an independent, non-profit university, is regionally accredited by the Middle States Commission on Higher Education.

## ON-CAMPUS BACHELOR'S DEGREES

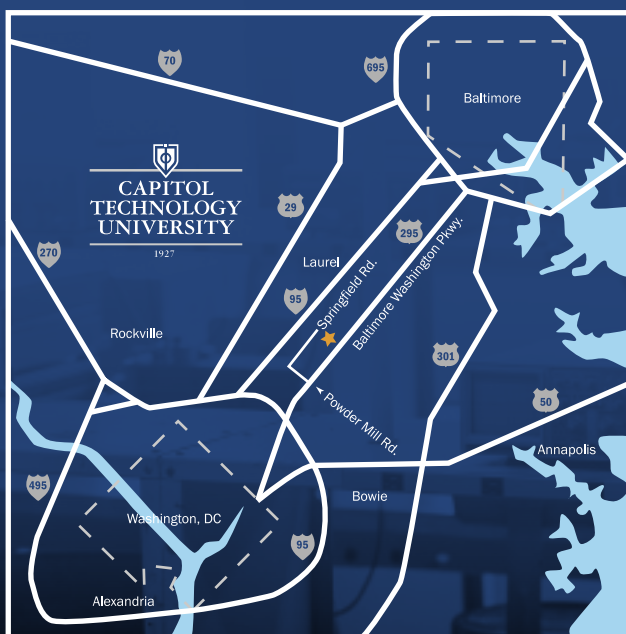

- Astronautical Engineering
- Computer Engineering
- Computer Engineering Technology
- Computer Science
- Cyber Analytics
- Cybersecurity
- Data Science
- Electrical Engineering
- Electronics Engineering Technology
- Engineering Technology
- Information Technology
- Management of Cyber and Information Technology
- Mechatronics Engineering
- Mechatronics and Robotics Engineering Technology
- Software Engineering
- Technology and Business Management
- Unmanned and Autonomous Systems

## ONLINE BACHELOR'S DEGREES

- Construction IT & Cybersecurity
- Construction Management & Critical Infrastructure
- Construction Safety
- Counterterrorism
- Cybersecurity
- Facilities Management & Critical Infrastructure
- Professional Trades Administration
