Advanced Carpentry 6e

About NCCER

NCCER is a not-for-profit 501(c)(3) education foundation created by the construction industry to develop standardized curriculum and assessments with portable credentials and certifications for skilled craft professionals.

The latest upper-level trainee guide from NCCER's newly revised Carpentry series. The 6th Edition homes in on skills for carpentry in building construction. Comprised of nearly 300 hours of skills, Advanced Carpentry covers competencies from site preparation and installation to thermal protection and finishing.

NEW Advanced Carpentry: Frame and Finish includes

- 1 **Coverage of various residential and commercial building systems used by carpenters.**
- 2 **New modules on Mass Timber Construction, The Building Process, and Interior Finish and Trim.**
- 3 **Revised modules on Drywall Installation and Roofing Applications.**
- 4 **All content updated to reflect modern tools, approaches and best practices.**
- 5 **Updated safety information.**
